[Additional Final Data 1-30-2017.pdf](#)

Hi Jen,

This is intended as a supplement to the pdfs at: <https://www.epa.gov/uss-lead-superfund-site/uss-lead-drinking-water-pilot-study-data>

Thanks!

Val

Valerie,

Can you send me the PDF you want to add to the site and tell me where it should be added?

Jen, please work with Valerie to add this data to the USS Lead site. Valerie, Jen is the Editor in Chief for the USS Lead website, so she's the person to work with on any further updates. (I provide backup sometimes.)

Thank you both,

Karen

Subject: RE: Additional USS Lead water data

Hi Karen and Jeff,

Please see attached for the sites that we have received new full final data since 1/24. This should be the last "update" for a while. There are 2 sites that have not yet been sampled post-excavation, so it will be a little bit until we would potentially get that data (after sampling is completed). All other data is now final.

Please let me know if you have any questions or need anything else.

Thanks,

Val

Subject: Additional USS Lead water data

Hi Karen and Jeff,

Please see attached for the sites that we have received new full final data since Friday. Based on input from Tom Poy, this is intended as a "Additional Final Data" (separate pdf on the same webpage).

Please let me know if you have any questions or need anything else.

Thanks,

Val

Subject: RE: When do you expect the USS Lead data?

I think we were anticipating this would be a stand-alone pdf – are you asking for information for the “Landing page” that this link would be on?

When all final data is reported (or perhaps in discrete updates depending on management direction), I would anticipate this pdf would be replaced with the updated document.

The tables have applicable data notes, including a description of preliminary data, where applicable.

Does that help?

Thanks,

Val

Thank you for sending that, Valerie.

I'm making a page for the PDF, and I have questions; anything you can tell me would be helpful.

Is there any other language I should include (maybe about this being preliminary data, or whether it's for a subset or all of the houses? Or when the samples were taken?)

And do we expect to add more data to this page?

Thank you,

Karen

Karen,

Sorry for the delay, the computer was moving slowly with the pdf work...

Please see attached for the data tables and figures for the 43 sites in East Chicago – Addresses have been removed, but there is some preliminary data. The included prelim data was sent to residents due to delays at the contract lab in finalizing the data.

Thanks,

Val

Hi Rita,

I'm going to be posting your new web page with USS Lead data, and was wondering when you think the data will be available? I've got plans for this evening, so am trying to fit schedules.

Thank you,

Karen
